The 33 author list and the footnote numbers indicating 56 institutional affiliations are included here to show the scope of support for these protocols for the early treatment of COVID-19 that are being denied, rejected, and suppressed by Anthony Fauci, NIH, the FDA, and the CDC, as well as WHO and many countries.

4 The words "we" or "us" refers to Peter and Ginger Breggin. The first person, "I" or "me," refers to Peter Breggin who wrote the text of this book. However, the book has been a joint effort from its initial conception. Ginger has been totally involved in developing our mutual understanding of COVID-19 from the outset. She came up with many insights embedded in the book and has done a large portion of the background research and obtaining of sources for this book. She has also found many of the experts we have consulted and whom I interviewed on the Dr. Peter Breggin Hour, our weekly radio and TV show. https://breggin.com/the-dr-peter-breggin-hour/

A newspaper, The Epoch Times, provides the best current information on the silent Chinese war against America that we have found. Two of the most revealing recent books, which we had not seen before we reached our own conclusions studying COVID 19, are Gertz, Bill. Deceiving the Sky: Inside Communist China's Drive for Global Supremacy, New York, Encounter Books, 2019 and Schweizer, Peter. Secret Empires, New York, Harpers, 2019. I personally spoke with several professional people of Chinese origin with families still in China or who had recently visited China who confirmed these stories of atrocities. One described how the Chinese Communist Party increased its control and surveillance of the nation and made war upon people infected with the COVID-19 as if attacking a foreign enemy. Also, from scientific publications and reports from knowledgeable people, the Chinese government did not take control of patient treatment and doctors used many treatments from traditional Chinese medicine to prednisone and hydroxychloroquine. So two factors may have led to their relative success in controlling COVID-19 (if it is true): totalitarian control and non-interference with early treatment or medical care. While China may have slowed the spread at times, COVID-19 is still being fought with draconian measures wherever it flares up.
